Ashtrays

ASH BIN

Dimensions: Diam. 100, W 106, H 143 mm

Weight: 0.7 Kg

The main body of the ashtray ASH BIN is made of 10/10 thick steel sheet, while the upper part and the cover are made of 20/10 thick steel sheet.

On the upper part there are some lasercut slots to extinguish cigarettes, and in the middle there is a 20mm hole for the butts.

The cover is supplied with a closing spring, and a universal triangular key. the cigarette symbol is laser-cut in the front of the ashtray. Thanks to the special inserts placed on the back, the ashtray ASH BIN easily fits with any litter bin of our range.
