The body of the bollard is made of laser cut steel tube 100 x 60 mm, and 5mm thick, with irregular "palm frond" pattern (exclusive pattern for the UAE market). The holes created by the "Palm frond" pattern are covered with transparent PC sheets on both sides. All steel

pars are galvanized and powder coated.

The top of the bollard is movable, in order to enable the maintenance of the light. The bollard can be fixed to the ground with no. 4 screws M8.

Customizable colours.
