Litter bins

Litter bin CHARM

 THE[®]
ITALIAN
LAB

Dimensions (mm): Ø 450, H800

Weight: 25,1 kg

Capacity: 80 LT

PATTERN NOT AVAILABLE FOR THE UAE MARKET

The body of the litterbin is made of laser cut steel sheet, 1,5 mm thick, decorated with an irregular "Palm frond" pattern (exclusive pattern for the UAE market). The lid is made of 4 mm thick steel. The bin is supplied with a spring lock and a triangular key.

The steel components of the litterbin are cold galvanized and powder coated. Within the bin there is a waste bag support made of zinc-coated steel sheet, supplied with two

handles and an elastic to fix the plastic bag.

The base of the bin is made of stainless steel 316 L, with no. 4/8 holes to fix the bin on the ground.

Optional: Cigarette tray, consisting of a 15/10 thick pierced sheet plate, with 5mm holes to extinguish cigarettes. The butts can be thrown in a 20/10 thick steel box, fixed to the lid, through no. 3 holes, dia. 20mm. Customizable colours.
