Benches

CLAPS bench

 THE[®]
ITALIAN
LAB

Dimensions:

L 2000, W 610, H seat 450, total H 800 mm

Weight: 73.8 Kg

The CLAPS bench is made of 2 solid 50/10 thick steel legs, linked together by two C-shaped elements, 40x50x40 mm, Thickness 30/10. The seat is made of exotic wooden slats.

On the legs there is a decoration called "CLAPS", made by laser cutting. The bench can be fixed to the ground with 4 suitable bolts (not supplied) through 10-mm holes.

The backrest, made of two solid steel parts, is attached to the legs by 4 hex-cap screws; an exotic wooden board, treated with natural waterproof oils, is attached over it.

All the steel parts are then cold galvanized and polyester powder coated.
