Weight: 232,3 Kg

The seat Eles is made of 60/10 thick galvanized and polyester powder coated steel; the seat is made by joining two bent sheets, one wider than the other, size 310x1950 / 2900 mm e 790x1950/2900 mm.

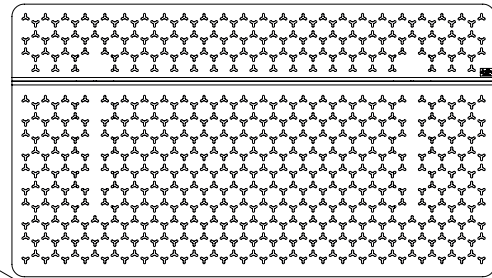

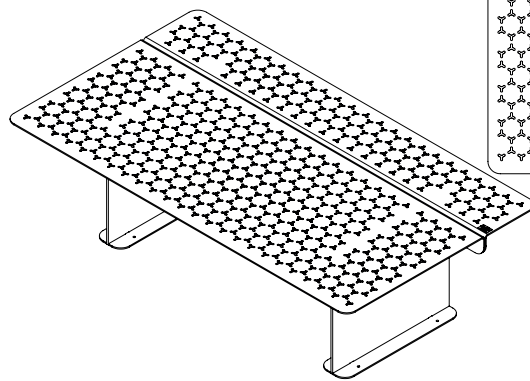

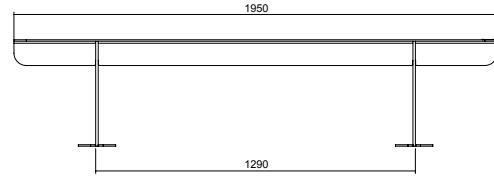

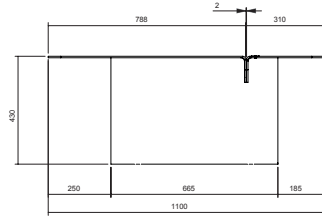

The surface of the seat is characterized by a particular texture, called "ELES".

The legs of the bench are made of 10 mm thick galvanized and polyester powder coated steel.

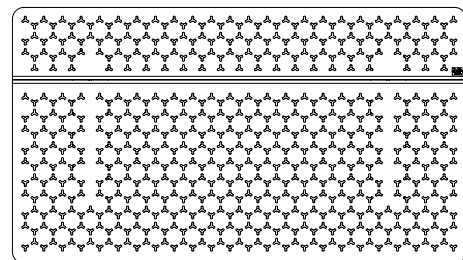

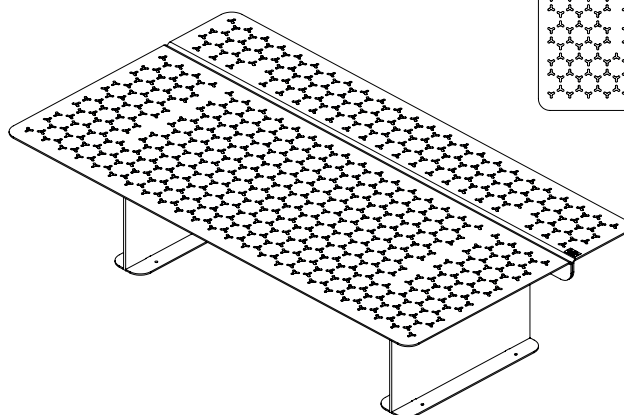

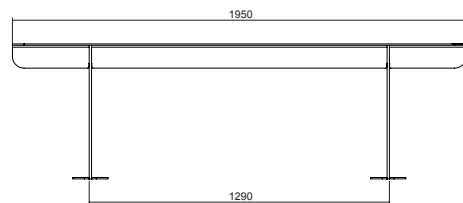

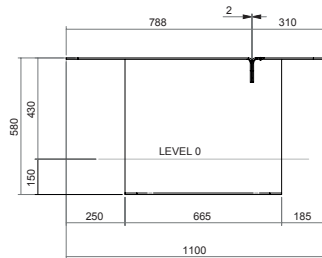

The base, size 150x660 mm, is welded to the legs, and is supplied with 4 holes of diameter 12 mm for ground fixing with appropriate bolts (not included).
