MAC WOOD bench

 THE[®]
ITALIAN
LAB

Dimensions:

L 1800, W 590, H seat 450, Tot H. 780 mm

Weight: 121.6 Kg

The MAC WOOD bench is made of three 40/10 thick steel sheets, laser cut and welded together.

Two of them have a 50 mm radial pattern.

The backrest, also made of 40 mm thick steel sheet, is attached to the seat with 4 M8 rounded head cap screws. The seat is made with slats of exotic wood treated with natural waterproof oils. There are six decorative openings on the backrest and seat. The base plate is provided with 4x10 mm holes for ground fixing with suitable bolts (not supplied).
