Benches

MAC bench

Dimensions:

L 1800, W 590, H seat 450, Tot. H 780 mm

Weight: 127.9 Kg

The MAC bench is made of three 40/10 thick steel sheets, laser cut and welded together. Two of them have a 50 mm radial pattern. On the seat there are two openings to drain rainwater. The seat, also made of 40 mm thick steel sheet, is attached to the back with 4 M8 rounded head cap screws. There are six decorative openings on the backrest and seat. The base plate is provided with 4x10 mm holes for ground fixing with suitable bolts (not supplied).
