Benches

ONDA 2.2 MT seat

Dimensions: L 2200, W 515, H 500 mm

The ONDA flat bench, made of sheet steel, th. 50/10 is obtained by bending a sheet. On the external parts of the seat strong reinforcing plates are welded and at the base there are 2 special plates with a hole diam. 10 mm for fixing to the ground using special bolts (not supplied). The sheets are then cold galvanized and powder coated PP.
