Litter bins

PLAZA

 THE[®]
ITALIAN
LAB

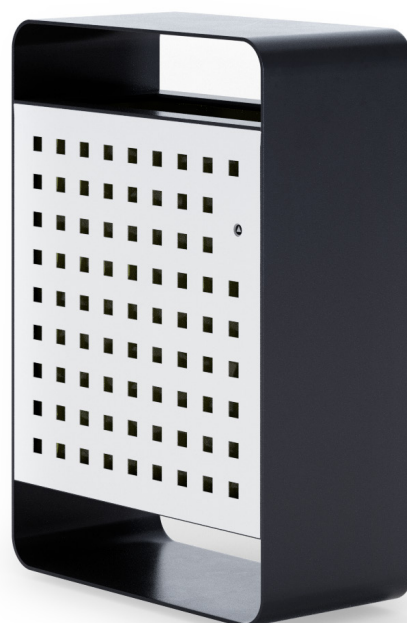

Dimensions: L 600, W 300, H 870mm
Capacity: 75 L

The structure of the PLAZA litter bin is made of 50/10 thick steel sheet; the door and the back are made of 15/10 cold galvanized and polyester powder coated steel (reinforced by "C"-shaped inner brackets).

The waste bag support, made of 30/10 thick zinc-coated steel sheet, is movable and it is fixed within the bin by suitable "C"-shaped brackets. The bin has a spring lock with universal key. Ground fixing is with suitable bolts (not supplied) on 4 10-mm holes.

Optional:

1. Throw cigarettes
2. Door and back with multi-layer Okumè wood panel, treated with water-repellent water-based paints.

**OPTIONAL
WITH HOLES**
