## Recycling bins

RECYBIN GRASS 3

 THE<sup>®</sup>  
ITALIAN  
LAB

**Dimensions:** Diam. top 496, H 861 mm

**Capacity:** 3 x 40 L

**Weight:** 35.5 Kg

RECYBIN, the cylindrical shaped bin for recycling, is made of 15/10 thick zinc-coated and polyester powder coated steel sheet. On the body there are laser cut incisions of different sizes depicting grass blades.

Inside the bin there are 12/10 thick steel partitions to contain the waste bags; the waste bag supports are made by laser cutting a 30/10 thick zinc-coated sheet.

On the waste bag supports there are "teeth" to anchor the bags. The lid of the RECYBIN is made of 40/10 thick cold galvanized and polyester powder coated steel: it is fixed to

the structure with a solid 30/10 thick three wings hinge.

**Optional:** lock with triangular key. On the lid there are laser cut frameworks made of 15/10 thick zinc-coated steel sheets; the colours and the signs can be customized depending on the kind of waste. The base of the is raised of 40 mm. It is pre-perforated with rings for ground fixing with suitable bolts (not supplied); this feature makes cleaning easier and the filth at the base of the bin is less visible.
