

CODE: UL-PRB-05

Bike racks

ROUND

Dimensions: Diam. 550, H 700 mm

The ROUND bike rack is made of a load bearing square-sectional steel tube mm 100 x 100 T 2 mm; 2 30/10 thick calendered bands are welded to it. At the base a 10-mm thick flange (200x200 mm) is welded, with 4 D. 10 mm holes for ground fixing. Cementing is possible by a suitable 250-mm extension below ground. The bike rack is then cold galvanized and polyester powder coated.
