**Dimensions:** L 1200, W 400, H 802 mm

**Capacity:** 3 x 85 L

Recycling bin with 2/3/4/5 sections, made of polyester powder coated steel or antifingerprint coated stainless steel.

Inside it there are 2/3/4/5 containers for waste bags, anchored with an elastic rope diam. 10 mm. The cover is made of 40/10 thick cold galvanized and polyester powder coated steel. The lid is fixed to the bin with two 30/10 thick solid hinges – and driven by two brackets of zinc-coated steel that block

the opening at 110 degrees.

**Optional:** lock with triangular key. On the cover there are laser cutted frameworks made of 15/10 thick zinc-coated steel sheets; the colours and the signs can be customized depending on the kind of waste.

The bottom is prearranged with holes for ground fixing with suitable bolts (not supplied) or for plastic leveling feet attachment.
